To whom it may concern,

Re: Thomas Loch reference

Thomas was employed by Pacific Data Systems Australia (PDSA) for the past year as an Electronics Technician. PDSA is a small company of 13 staff where Thomas was an integral part working in our production facility and quickly progressed to printed circuit board design and setting up and operating the automatic pick and place machine for printed circuit board population. Thomas also took to maintaining the bill of materials for our product lines for our production section.

In the short-time I have known Thomas I have found him to have impeccable attention to detail, be honest, reliable and dedicated to his place of employment. Thomas was always happy to go the extra mile. Thomas would be an asset to any future employer.

Should any further information be required I can be contacted on 07 3361 2000 and I will be only too happy to answer any queries regarding his capabilities.

Dave Hugman

Production Manager
